

THE TREE HOUSE RESORT
JAIPUR

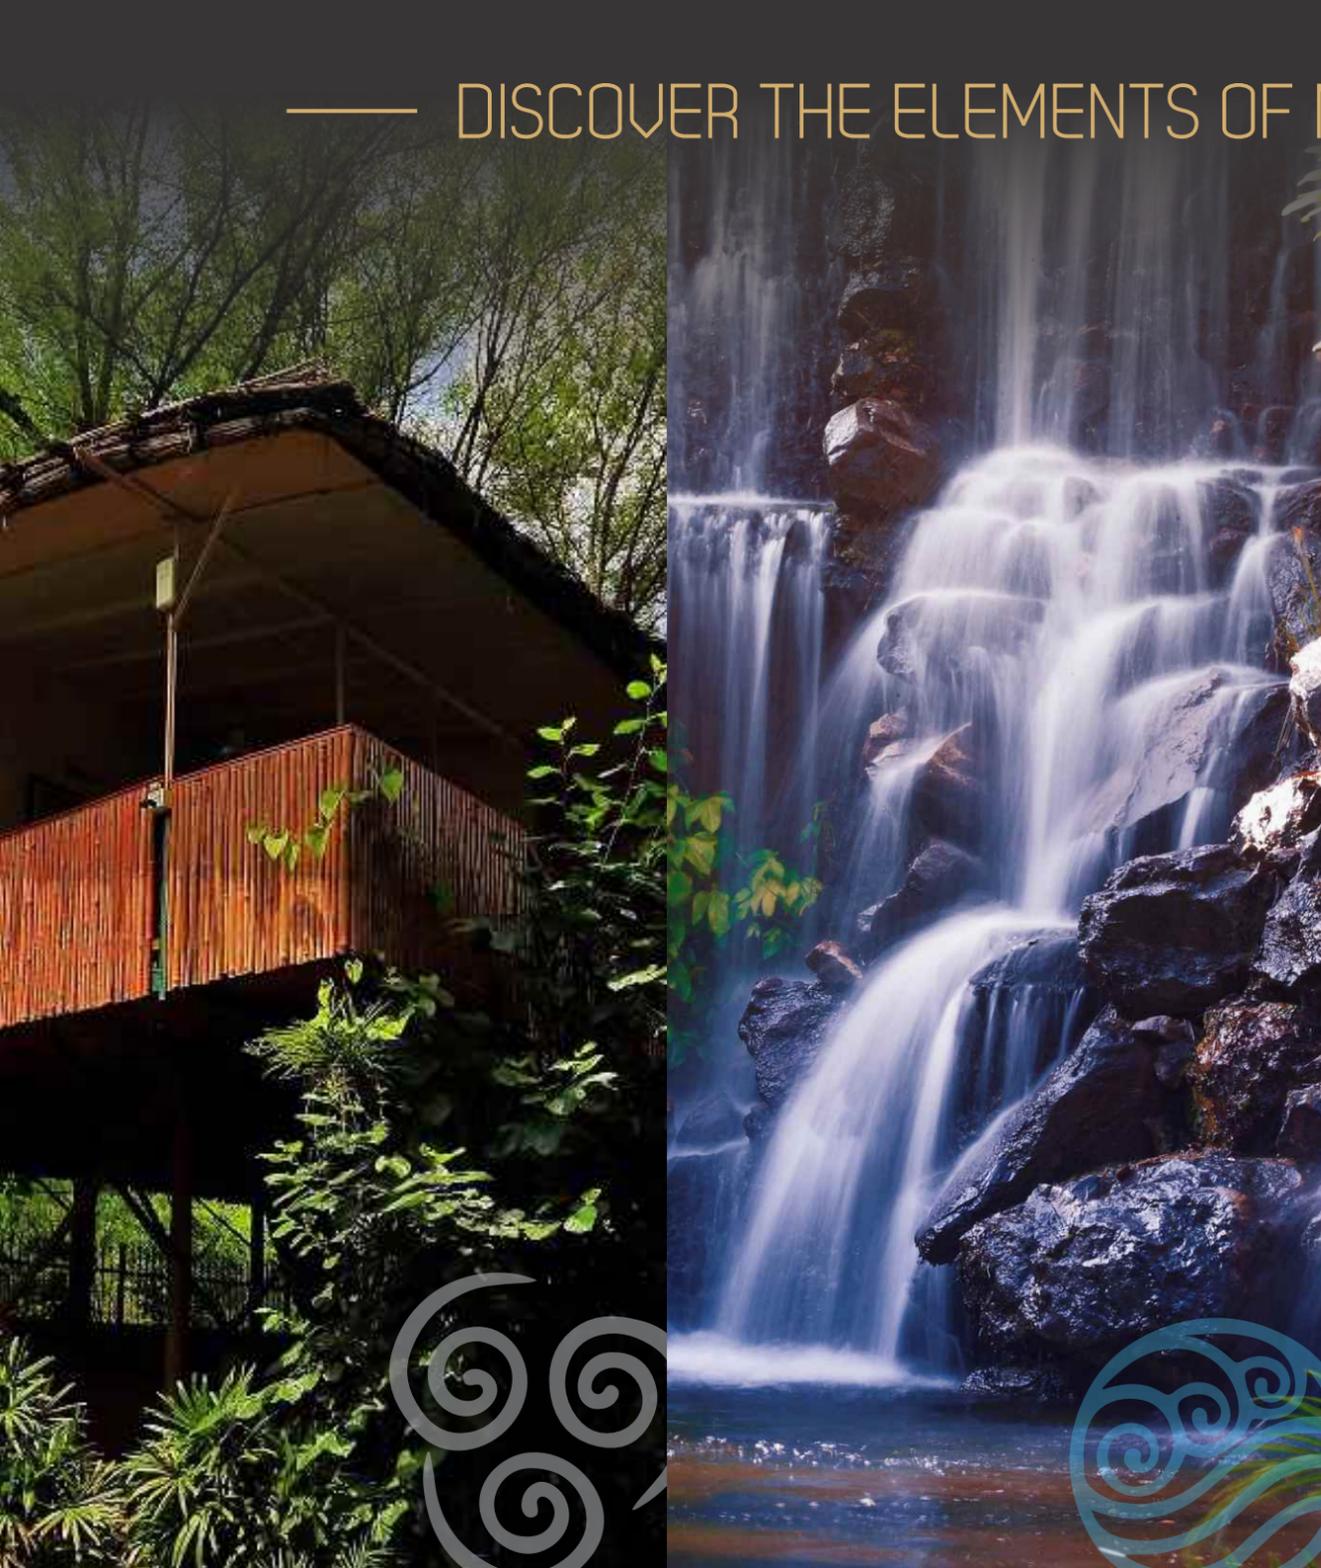

DISCOVER YOUR OWN PARADISE...

Conceived in 2006, The Tree House Resort is an award-winning property that was built on the principles of Eco-luxury and unconventionality. Not only was breaking away from the stereotypical heritage fanfare and "Bed in a box" mentality of absolute necessity, but also a gateway to innovative yet responsible hospitality.

Nestled in the scenic Syari Valley, with an amazing view of the mighty Aravallis, **The Tree House Resort is situated at Nature Farms which is spread around 300 acres of pristine landscape. The resort derives its inspiration from the three elements of nature; Air, Water & Earth.** The décor is in sync with the theme of nature with tree top rooms and over-water suites essentially made of wood under the Eco-friendly standards of construction. The meandering pathways navigate through lush green vegetation, water bodies, & waterfalls so as to ensure that the soothing sound of flowing/falling water does not leave the guests ears as they move around discovering the property. In addition, there are several wooden gazebos adorning the property where guests can indulge in meditation, reading and relaxing in the midst of un-spoilt nature.

The 20 Tree house Nests showcase the element of air and finely blend the comforts and luxuries of a five-star room with nature in its pristine prime. Perched atop "keekar" trees, the nests have several live branches running through the rooms making nature omnipresent in the Lap of luxury.

The concept has been inspired by none other than the greatest and the most original artist- the Mother Nature itself. The idea has been to bring the tired urban mind, body and soul into the heart of pristine nature without taking away anything from them that has been part of their routine urban existence.

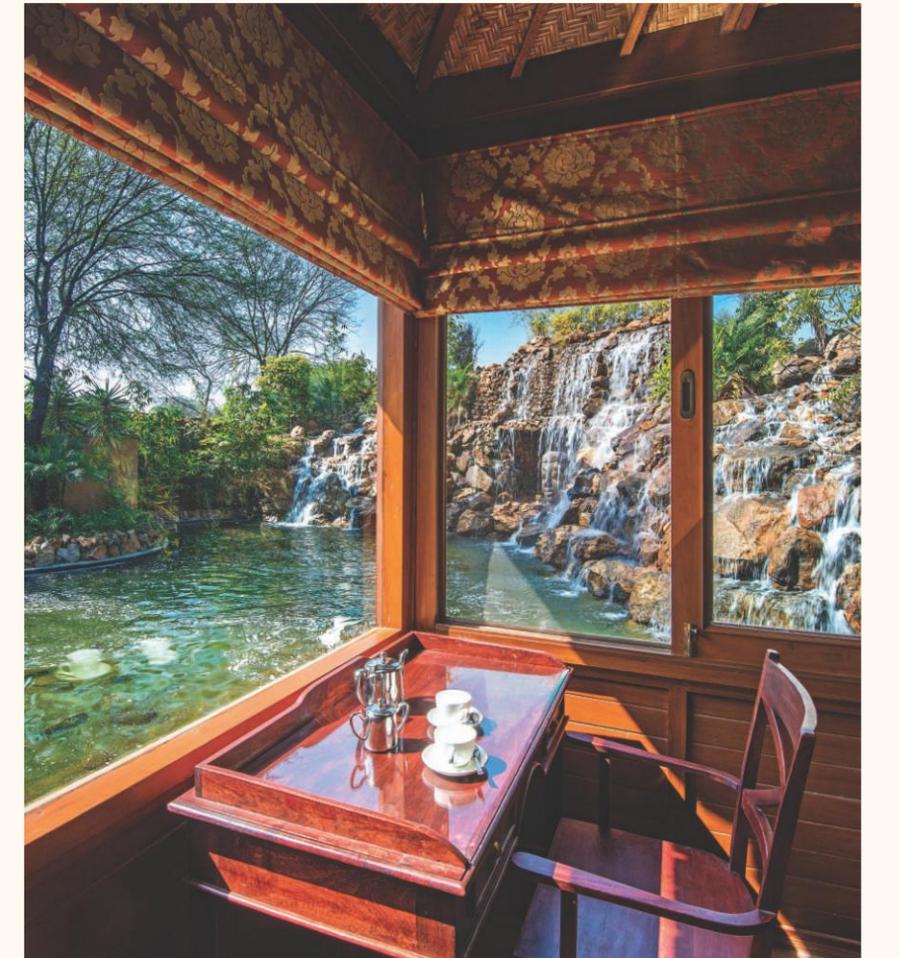

— OVER-WATER SUITES —

They showcase cascading waterfalls, Jacuzzi, outdoor showers, private patios to glass floor sections to view the marine life below; these over-water bungalows transport the tired urban minds into a state of complete bliss.

— EARTH HOUSE ABODE —

The newly appointed earth house derives its character from the element of Earth with its mud finished exterior & rustic village artwork but still boasts of plush insides. It consists of 38 deluxe rooms and suites and 6 hilltop villas.

— WHAT THEY SAID —

“Being able to reach out and touch the treetops, with birds and chipmunks just inches away, is a fantastically uplifting experience and, despite their “rustic” appearance, the treehouses all come equipped with the usual mod-cons: air conditioning, a flat-screen television and a mini-bar. Below each tree house is a lawn, where guests can sit and read, bird-watch or just listen to the resort’s burbling streams and waterfalls.”
